“ She is my super dewper Sarah .She could run and play for hours take a few breaths and demand to play all day long .And if I said I'm tired she would put her hands on her hips and give me this look that maid me just say ok your not tired.And then she would jump on my lap and beg me to play .I would tickle her and her sister Kaylee till they was almost crying to get them to stop wanting to play .Then they would run to mother Michelle for a hug .Then I would tickle her brother michael so much he would have a asthma attack but he had the biggest smile the whole time .And after Sarah got a sippy cup of juice from mom she come running back for another turn of tickles .I miss her and wish I could have been there for her and my 4 other children .I fear they hate me .As does the rest of the family .I love you Sarah ,Kaylee ,Michael,Christian,and Bobby ,and there mother Michelle .
